

## Part II: Field Work assessment

Mobile ~~XXXXXX~~

I am a...

I am Woodpecker,

But not just any old woodpecker, I am special because I have a red head.

Can you guess my name?

I am called an Acorn Woodpecker, there are some unique features about me, one way you can tell it's me is that I peck straight up and down.

You can also tell it's me by looking at the tree, I love to peck dead trees because they're as soft as a pillow, so that makes it easier to peck holes in and store all of my precious acorns in.

I am Woodpecker

## Part II: Examples of Student-Led Conferences

I Am...

I am solitude.

If you have siblings you don't know me that well.  
I am the beauty of silence that is difficult to decipher.

I can be awkward or peaceful or just plain beautiful.  
Me and Reflection have to work together to be ourselves.  
You may like me or dislike me but whatever your opinion is, you cannot stop me.

Silence cannot be stopped; it will somehow reach you in a good or bad way.

I am a good feeling.

In many conditions I am the best words to give to someone in pain.

I am solitude.
