David

Length: 11 ft My animal eats fish
Weight: 1,500 lbs My animal lives in Sunlight zone
Arms/Legs/Flippers: 2 My animal is striped like
Danger: 8 a tiger

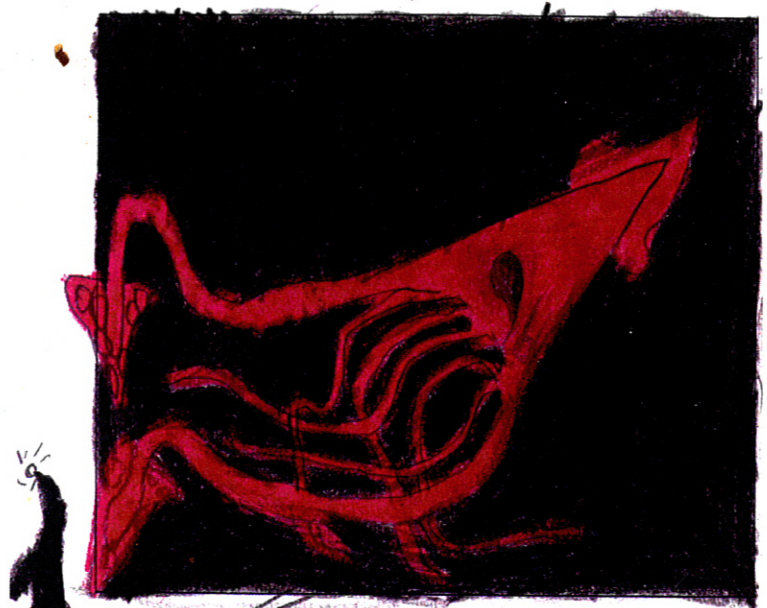

HOW TO PLAY TOP TRUMPS

2 - 6 people can play. Shuffle and deal all the cards face down. Each player holds their cards face down with only the top card face up in the palm of their hand. Players can only look at their top card. The player to the dealer's left starts by reading out the first category, (for example, Danger 8). Whoever has the highest score wins and gets to choose the next category.

If 2 or more cards share the same value or no data is available, then those cards are placed in the middle and the next player chooses again from the next card. The winner of that hand takes all the cards in the middle.

The person with all the cards at the end is the winner.

Giant squid
Seb

Length: Max Length My animal eats Squids
65 1/2
Weight: 440 lbs My animal lives in Dark zone
Arms/Legs/Flippers: 10 My animal is Huge Sponge
Danger: 5 and very fast
