

There was a storm and the waves got bigger and bigger. The person was running so he wouldn't get burned by the fire on the mountain. There were coconut trees and regular trees. The waves got bigger and bigger. Finally, the storm stopped.

In the water, a hurricane was coming. And then the stop sign is blocking the water so it doesn't hit the city, but the hurricane makes big waves and the waves are too high so they went over the stop sign. The hurricane made it to the city and then the clouds thundered and were flashing down. The rain flew down and then the big strong wind blew everything off and the people were floating down, down into the water. Then, the hurricane turned into a tornado and everything turned around both ways and then the tornado exploded.

Ms Lilagrew

That is Ms.Lilagrew and she lives in Ayolkea and that's what color the sky is in Ayolkea. The grass in Ayolkea is black in summertime. In wintertime in Ayolkea, the sky is blue when it's winter. Haha, and there is orange snow coming down from it, it's a very funny place. In wintertime there, the grass is green. It rains orange rain in the summertime too. And the rainbow only has orange, blue and red... that's it! Just a rainbow with three colors!

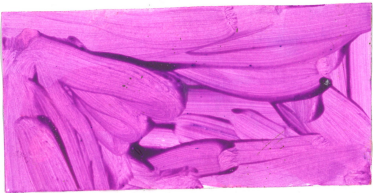

Claire's colors (from top to bottom):
It's a fruit orange, grape,
your sweater is that color, blackberry.

My painting is that I made blue at the top for the sky and I made green at the bottom for the grass. I think it should be part of the garden. The garden has green things like tomatoes and apples.

Elijah's colors (from top to bottom):
Fern green, apple green because I love apples,
leaf green, blueberry.

Once upon a time, there was a little house that was only a door. It was a triangle door. Nobody lives in the house because it is nowhere. This painting is about it.
