The Catfish's adventure

I am a purple African Glass Catfish. The first thing that happened was that the net dropped me into a tank at Santa Fe School for the Arts and Sciences. I saw 8 Cichlids and 1 Plecostomas sucking on the algae. I thought, "What is that purple light at the top of the tank... hmmm?"

When I swim toward the Cichlids, they swim away. They never stop to talk to me like they do to each other. When I try to talk to them, they turn the other way. I am going to say hello to a Cichlid and see what they do. I swam to the wood tunnel. I saw the boss Cichlid.

He looked at me and then darted away. That made me think he was scared of me.

I looked at another Cichlid. She darted away as fast as she could. I thought "Are the Cichlids scared of me?" They are smaller than me, they always swim away from me, and I am biggest fish in the tank."

A Cichlid shivering all over comes and tells me the other cichlids are scared of me. I say, "Thanks, I did not know that, I am nice!" The Cichlid said, "ssso xyyy ouern nnnnice?" then she went away.

She came back with 7 other Cichlids. They started to ask me questions like "What is your favorite color? What is

your name?" Finally, I was happy
because they weren't scared of me any-
